An act to ~~amend Section 11656.6 of the Insurance Code,~~ relating to workers' compensation.

LEGISLATIVE COUNSEL'S DIGEST

SB 1007, as amended, Speier. ~~Insurance: workers'—Workers' compensation policies.~~

*Existing law provides that an injury of an employee arising out of and in the course of employment is generally compensable through the workers' compensation system.*

*This bill would state the intent of the Legislature to improve the workers' compensation system by promoting the efficient delivery of high quality appropriate medical care.*

~~Existing law authorizes an insurer to issue a workers' compensation policy insuring an organization or association of employers subject to specified conditions, including requirements that the organization or association file certain documents with the commissioner or a licensed workers' compensation rating organization relating to (1) the percentage of its membership engaged in a common trade or business, and (2) the naming in certain statements of members eligible for insurance. Existing law defines the term "common trade or business" for purposes of these provisions.~~

This bill would expand the definition of “common trade or business” to include specified types of manufacturing facilities.

Vote: majority. Appropriation: no. Fiscal committee: no. State-mandated local program: no.
